BILLIARD TABLES.

C. LAZARUS & Co., as Manufacturers, would invite particular attention to their large stock of full-sized Billiard Tables. One of the chief desiderata in a Billiard Table is to secure such an arrangement as will admit of a Ball being struck so as to attain the highest speed without its jumping. This, it need scarcely be said, depends entirely upon the arrangement of the cushions. C. L. & Co., in mentioning this fact, would state that the subject has largely occupied their attention, and, after repeated experiments and close consideration, they have discovered a principle in the manufacture of cushions which answers admirably the end desired. Since the manufacture of their cushions on this new principle, C. L. & Co. have received testimonials from some of the first Clubs in India speaking to the merits of the same. To secure truth with speed, that is to say, the maximum of speed compatible with preventing the Ball jumping, is the object which C. L. & Co. have had in view, and which at length they have successfully attained. At the same time, the cushions, it should be stated, are quite as durable, or even more durable, under the new principle of making up, than under the old.

New Patent Celluloid Billiard Balls, Billiard and Pool Balls:

Billiard Cloths, Cues, Billiard and Pool Marking Boards, Tips, Chalks, and every requisite for the Billiard Table.

Billiard Cushions Renovated.

Billiard Tables repaired and re-cushioned on their new principle, thereby making an old Table as good as new.
